REPRESENTATIVE IN Buenos Ayres
Edw. F. Powers.

The above Company have acquired the Rights, Patents, Concessions, Goodwill and Interests of Frederick Allan Gower and Benjamin D. Manton, as existing under a contract between them, dated July 20th, 1880, in the City of Providence, Rhode Island, in the U. States of America.

It is now the purpose of this Company to extend Telephonic Communication to the Public of the City and Province of Buenos Ayres on a more thorough and systematic plan than heretofore attempted. To accomplish this they will supply the latest approved form of the Gower-Bell Loud-speaking Telephone with appurtenances for same of the most recent and perfect manufacture, and at the same time having at hand a thoroughly experienced and efficient staff of operatives and assistants, hope to attain such success as will bring them to the front as the First Telephone Company of the River Plate.

When a commercial, and even a social, community have the full benefits of a well-organized Telephone system, it is only then the many and great conveniences of this wonderful invention are thoroughly understood and fully appreciated. It is the wish of the Company to effect this in Buenos Ayres, as has already been done in all large cities of the United States, where it is estimated more than 500,000 instruments are in use. In fact, it has come into such universal use there that its loss would be most severely felt by the Public generally. The Company will introduce into this city the American system in its entirety.

The management would ask the kind indulgence of the Public for a few weeks, as much has to be done and many obstacles overcome before the proposed system can be put in a satisfactory condition, at the same time he begs to state it will be his utmost endeavour to give as perfect a service immediately as is consistent with the multitude of work on hand.

As Buenos Ayres is a city of magnificent distances, the Gower-Bell Telephone will be found in its working the most practicable as well as the simplest and strongest instrument ever invented, and it was on account of these favorable and self-evident qualities that it was specially adopted as THE TELEPHONE for the Telegraph Department by the British Government, who have contracted with the above named Company for 15,000 instruments. It is also extensively used in France and Belgium, where it has given general satisfaction.

The Company has secured the fine and commanding premises situated at 128 Calle Florida, where it would be pleased to exhibit the working of its system to those of the public who are interested in the development of this great time-saving invention.

Subscriptions to Exchanges, $175 per month.

Private Lines, special terms on application.

Any further information the Local Representative would be pleased to give personally or by letter.

Vendere los campos arriba espresados, la mejor recomendacion que de ellos puedo hacer es copiar los datos sacados oficialmente del Departamento Topografico de Cordoba que es el siguiente:—

Detalles de las suertes num. 4 serie A Departamento Rio Seco, y los num. 7 serie B y num. 8 serie A Departamento de Tulumba.

La primera esta situada en la Pedania de la Candelaria; como a 20 leguas al Sud Este de la Villa Maria, linda al Norte y Este con terrenos fiscales y al Oeste con la suerte N. 3. Este campo es bueno, para todas clases de haciendas y sus pastos buenos y abundantes, tiene montes y algunas taletas de Chañares, las aguas a 2 varas en su mayor hondura. La segunda esta situada como 2 leguas al Nor Este del puesto de Fierro, linda al Norte con la suerte num. 4 espresada mas arriba.

Este campo es inmejorable, sus pastos superiores para toda clase de hacienda, tiene monte y el agua esta a dos varas; y la tercera esta situada en la Pedania de Mercedes, linda al Sud con la suerte num. 7 y a los otros rumbos con terrenos fiscales.

Este campo es de buenos pastos para toda clase de hacienda, las aguas alcanzan a 2 varas segun consta de los espedientes que existen en el archivo de este Departamento a que en caso necesario me refiero, en fe de lo cual firmo la presente en Cordoba a 27 de Enero de 1882.

Por autorizacion:

Carolina Folu Tonic.

This excellent preparation has completely superseded 'Rock and Rye' so generally used for Pulmonary Diseases in the U. States.
Carolina Folu Tonic is composed of the best Rye Whiskey, Rock Candy and other medicinals beneficial for Chronic Coughs, Throat diseases and consumption, and it has no equal in cases of general debility.
Its flavour is very agreeable, and once tried it is certain to be used as a family remedy.

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Montevideo, Feb. 3rd

Chambers informed Executive that they are ready to close. 'Limpieza' tax proposed by Junta rejected.

U. S. flagship Shenandoah will leave to-morrow, after three years on this station.

Several Deputies have challenged editors of *Italia*, for remarks made on them in that paper.

The authorities in Salto are assisting the victims of the cyclone.

Salta, Feb. 3rd

Bolivian mail arrived.

Villavicencio murdered on road between Arequipa and Arica.

Abaroa squadron disbanded in Potosi.

Cochabamba and La Paz papers have given over writing about war preparations and defending the 'sacred soil,' and now even advocate a cession of territory to Chile, to ensure peace.

Cordoba, Feb. 3rd

Forgery of notes of Montero Bank discovered. Criminals arrested.

Rosario, Feb. 3rd

Awful storm here to-day, with torrents of rain. Dr Pizarro arrived from Santa Fe and left for Cordoba. Wheat sold at Cañada de Gomez at 17-2 dollars per fan. of 15 arr., and prices look upwards.

9 de Julio, Feb. 3rd

In general the camps look well? The locusts swarm from Fort Paz to Fort Septimo and have done incalculable injury. At Mellizas all the wheat is eaten up, also 2000 fanegas of maize. The frost killed many sheep. Heavy rain, but camp fires continue.

Rosario, Feb. 2nd

At farewell banquet to Dr Arias last night, the toasts and allusions to the President of the Republic and the progress of the country under his Government showed the highest admiration for him.

Governor Antelo
to
President of Republic

Uruguay, Feb. 3rd

Most of the rebels are in our hands. Many papers and plans found on their persons. Arms are now being taken from the 'algibe' in Moran's house; most of the weapons are marked 'G. Buenos Aires.' There are a few rebels still afield about Gualeguay and Tala, but I hope the Gefe Politico of the former place will disperse them to-day.

Ayacucho, Feb. 3rd

Dutch engineer Waldorp arrived here yesterday; he has surveyed all the country from Tandil to Arroyo Huesos, and leaves to-day for Dolores and Tuyu.

Santiago de Chile, Feb. 3rd

Rumonrs of truce at Tacna between Bolivia and Chile well received at La Paz (Bolivia). Bolivian Press advocates peace, and Government is favcurably inclined. Said that General Camacho and Juan Carrillo will be named Bolivian Plenipotentiaries to negotiate peace. General Campero is at Oruro and the army inactive in its cantonments. A rise expected in wheat and flour.

Situation very strained. National Guards called out all over province. Arrests increasing.

THE PROVINCES AND THE CAPITAL OF THE REPUBLIC.

The question of the locality of the permanent Capital could hardly have had any other solution than that arrived at by the Congress in Belgrano. There might perhaps have been powerful reasons adduced for selecting another point, the most pertinent of which is that the Capital in Buenos Aires weakened the moral strength of all the other provinces. This is probably true; but we think it has also augmented their physical strength. The unanimity of opinion throughout the Republic clearly indicates that the people were satisfied with the solution, and taking into consideration the political events of the time, there could have been no other. Twice within four years, Buenos Aires, not the province, but the city, imperilled the integrity of the Republic; as the federalized seat of the National Government, that danger is averted in the future, and we can now speculate without partizan passion on the effect on the provinces which the solution of the Capital question will have.

We said above that it would weaken the moral strength of the provinces in all probability, and it will become the duty of the Congress and the National Government to remedy this. If we are to be governed by the Federal system, fourteen autonomous administrations, it is obviously indispensable that the constitutional law shall be equally binding on all. Buenos Aires, as the Capital of the Nation, will possess an overwhelming influence on the political status of the provinces. The President in office may be omnipotent should he so choose, and very few but will so choose. This is one of the dangers attending a federal central government having the exclusive jurisdiction over a federalized city of four hundred thousand inhabitants. One immediate consequence, we may already note: every governor elected and every Deputy and Senator sent to Congress will be personal adherents of the President. The political independence of the people will disappear. There will be no parties, no oppositions, no wholesome and prudent supervision of public functionaries, who will consequently become arbitrary, tyrannical or unprincipled.

We are not in love with the Federal system, but it is our form of Government, and if we at times point out its defects, it is our duty to urge that its constitutional precepts be rigorously obeyed, else it is no system of Government at all. If, however, with a federalized territory, equal in wealth and power to all the rest of the Republic, the President is omnipotent for evil, it is also in his power to be omnipotent for good. He may moralize the governments of the provinces, oblige them to do their duty. The President should convince himself of the great political fact of the nineteenth century: the people are insisting on being the fountain of authority. In the Argentine Republic this is a constitutional dogma theoretically, but a myth in reality. But this however is not the hardship we complain of. Nine-tenths of Argentine voters are ignorant of the value of the franchise. It is the use that unprincipled men are allowed to make of these foolish voters to stifle or annihilate all opposition or competition wherein lies the danger.

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

The federal system works well in the United States, because parties respect each others rights and immunities. The President never interferes for good or for evil, for friendship or enmity, in the States election; neither does he make use of his power to vitiate the independence of Congress' by seeking to secure the election of deputies amongst his personal friends. We are sure our present President will not fall into the lamentable error of insisting that provincial governors and members of Congress must all be sycophantic burners of incense.

ROSARIO.

(From our Own Correspondent)

February 3d.

Tributes to fallen greatness are always touching, probably because so rare. The proverbial kick to a man going down hill seems to be more characteristic of humanity. The province of Santa Fe is a brilliant exception, and her name ought to be written in letters of gold, to be held up before her sister states as a model of political morality. Gambetta is jeered at and ridiculed because of his fall. No one now appears anxious to offer him the crown of France. Mr. Pizarro has fallen too, but, like a cat, has fallen on his feet. Plucky little Santa Fe says to him, 'never say die—I'll stick to you.' The Governor says, 'wipe your eyes; I will make you a Senator,' His political partizans offer to send him to Congress as one of the Deputies for the province; but the most touching proof of disinterestedness and affection is from the Governor that is to be, of Santa Fe, Dr. Zavalla, who offers to make Mr. Pizarro Governor, that is, to give up his own claim in favor of fallen greatness and retire into private life (where he ought to be.)

There are two notable phases in Dr. Zavalla's telegram to Dr. Pizarro, the apparent abnegation which I will do him the justice to believe sincere and consequently worthy of admiration, and the simplicity of the rev. gentleman offering the Governorship to Pizarro, thus probably proving that that post is not elective but simply in the hands of some half-dozen individuals to bestow on a selected person. Dr. Zavalla says practically to his friend, 'I am to be made Governor, if you like you shall take my place,' and this without consulting his friends or party.

You ought not to be down on your old friends. Next to the celebrated 'hole in the Mole' and the 'seventy thousand ounces,' which you ignominiously retreated from, Rosario has been the favorite theme for the witticisms of your 'Editor's Table.' Rosario has also favoured you with a 'W. P.' You ought to be grateful to 'old Rosary,' as you sometimes irreverently call her. What do you mean then by libelling us in the way you do now and then? Well, it is true that some houses are left a considerable distance up in the air, and that the ladies, bless their arched insteps, have to climb a ladder to get into the church, which fact gives riss to the above blessing; but your unscrupulous informer said nothing about the great improvements going on that cause the inconveniences mentioned. The street on the church side of the Plaza has been dug down in order to make an easy road to the water side. The old church, the tumble-down Municipality and Public Library are all to be pulled down and fine buildings raised in their place, of course on a level with the new grade of the street. At present what with precipices, ditches, dug-up streets and huge piles of adoquines, the view is by no means Claud Lorainish; but a serious observer, like your correspondent, for instance, only sees in these temporary ills the proofs of the progress Rosario is making day by day. The principal street to the station too has had its grade changed and is being newly paved, stopping temporarily the traffic of the tramway to the railway.

We are 'lucidos,' as the Spaniards say, with the fine promises the Governor of the province made in reference to the proximate resumption of specie payments by the Provincial Bank. The value of their notes has declined since then about four per cent. They are now about 19 per cent. discount for gold. The financial policy of this bank is an anomaly. It is the only establishment here with an emission, and has consequently the monopoly of Bolivian paper in the province. All the Departments of the Administration receive the notes at par, that is from 21 to 16 fuertes. It possesses a respectable capital that amply suffices to guarantee its emission. There could be no reason to fear a run on its treasures in the event of returning to specie payments, for the notes are payable in Bolivian silver, and no one has any use for that article, and yet the Directory prefer the standing disgrace of witnessing their paper vacillating between 18 and 20 discount. The reasons now given are puerile enough. They say that the petty commerce is now accustomed to regulate their business on the basis of this discount, and that if the notes were given a specie value it would cause distress. They quote the paper money of Buenos Aires, and say the Porteños are paying as high for everything now that the paper money is at par as when it was at 30. In the meantime the subscription to Dr. Iriondo's Album reaches to five thousand dollars. There is 'gato encerrado' somewhere, you may depend upon it.

The Provincial Directory of the Western Santa Fe Railway have called for the second 'cuota' of 10 per cent, The first of 5 per cent. has been paid.

The rains of the 30th and 31st have been general and copious, followed by an extraordinary change in the temperature. On Tuesday and Wednesday an Ulster was not to be sneezed at. In fact without one sneezing was imminent. The wheat stacks suffered a good deal, as few were proof against the prolonged downpour.

Pachacnrac, pachacamac,
Camarsunqui, paramasqui.

Oh! I beg pardon, you don't understand Quichua. More's the pity.

What do you think the Aduana of Rosario gained last month? Nearly two hundred and nineteen thousand fuertes. That is not bad for a town where ladies have to show their silk stockings in climbing ladders to church.

I advise you to insure your life. Amougst other interesting objects, natural productions of the country, Salta sends to the Exhibition a huge live tiger. The beast managed to break out of its cage in Salta and roamed about the fields devouring, in the words of the newspapers, everything he met with. I hope he did not meet any of the pretty chinas that abound in that beautiful region.

Dr. Leguisamon sends a more valuable exhibit, viz., a splendid collection of woods, some of which will undoubtedly excite the admiration of cabinet-makers.

The Royal Mail steamer Guadiana's departure is postponed till to-morrow. Mail bags will close at the General Post Office at 1 p.m. sharp.

The masquerade balls, in favour of the total suppression of which public opinion is daily becoming more decided, were the scene of another crime on Friday morning. Just as day dawned and the wearied dancers were leaving the Opera House, the cry of a wounded man was heard. The police rushed forward as the man gasped 'I am dying.' Near him another was standing and the wounded man faintly pointed at him; the police seized him: he denied the crime at first, but subsequently confessed it, as the stiletto he had thrown away was found and exactly fitted a sheath found on him. At the Comisaria the accussed made the following declaration: "My name is Napoleon Menardi, and for 14 years I have been a chorister in the Colon Theatre. My heart and soul were centred in my wife and only child, Lombardi, the man I have wounded, and who I will wound again if he recover, was a violinist in the orchestra of the same theatre. Four years ago I went with the company to Rio and left my wife and child in his care. He ruined her and fled to Europe with her and my innocent child. For four years I have sought him to kill him. I have found him. Let justice decide what is to be done with me." Menardi refused to say a word more. Lombardi's life is despaired of.

The Entre Rios 'evolution' seems to have been of the usual flash-in-the-pan kind. All the patriots are now under lock and key. It appears that amongst those mixed up in the affair is an Irishman, Mr Moran, a Scotchman, Mr Peter McDougall, and a North American, Mr Heraclitus Hudson. It is nothing unusual to find an Irishman wherever there is a little fighting going on in a friendly way, but canny Sandy and cute Uncle Sam rarely indulge in the amusement. We wish them all safe out of it.

The storm at Montevideo appears to have been a mere zephyr compared with what they had in Fray Bentos and Salto. The *Porvenir* of the latter town gives a harrowing description of the ravages caused by the storm.

We publish in our Supplement to-day our brother's article, from the *Trade Journal*, on Spanish American trade. Also an account of the frightful tornado at Salto, E. Oriental. The bill of damages is 74 houses blown down, 3 barracas ditto; 11 rooms, 40 roofs, 46 sheds, 13 walls, 8 persons killed and 23 wounded. At Fray Bentos 120 houses were destroyed and the town inundated but no loss of life.

This is election day for Deputies to Congress and electors of Senators. Not so long ago people used to stay at home on election days, lest a stray bullet might reach them, but there is no danger of that kind of thing now.

We call the attention of the resident English-speaking Catholics to the appeal, in another column, by the Irish girls of this city in favour of the esteemed Passionist Fathers. It would be a great boon if English speaking Catholics had their own Church here, like the Italians, French, Germans, in fact all other nationalities. The offer of the Irish girls to subscribe 250 m/c. each yearly is very spirited and merits the highest praise.

The news that the Government intends to liberate the political prisoners in Ireland appears to be true. A telegram to our enterprising colleague *La Nacion*, from Pernambuco, says that the *Times* gives the intelligence, adding that the boon will be extended to all the prisoners but those who have distinguished themselves in flouting all the Government edicts, and who would begin again if released.

A friend left a number of visiting cards behind him in our office yesterday. We hold them for him.

A Salto subscriber sends us a complaint in reference to the master of the public school there being left three months unpaid, owing to some sharp practice on the part of some parties. The schoolmaster, a Frenchman, is a most respectable man and the sole support of an invalid father and mother. We call the attention of the Provincial School Board to this case.

We were favoured yesterday with a very interesting letter challenging some of our remarks in yesterday's issue in reference to the new Monetary Type of the nation. Want of space to-day forces us, most reluctantly, to hold the communication for our next issue.

Colonel Solano, who had an 'incident' with Dr Avellaneda in the street some five months ago, was liberated yesterday.

The foundation stone of the new chapel in Calle Piedad, near the Lacrosse Tramway Station, will be laid to-day.

Our highly esteemed colleague *El Porvenir* of Bahia Blanca charges us full tilt, for what we have said in reference to that delectable spot. There is a great deal of truth in what our colleague says about the estancias down there, but we stick to our text—Bahia Blanca has a future, but its present——.

A boy of 13 years of age, living with his parents in Calle Uruguay, tried to kill himself on Friday by ripping open his stomach with a pen-knife, because his father had reprimanded him for some fault. When the urchin saw his own blood flowing, he roared lustily for a doctor who, happily, arrived in time.

Twenty millions of bricks have been ordered at the San Isidro factory, for continuing the City Improvement Wokrs

Dr. Irigoyen, Minister of Foreign Affairs, gives a grand High Life breakfast at his estancia at Lujan this morning. Previously, the Archbishop will celebrate Mass in the chapel of the estancia house.

Mr. and Mrs. Huxtable celebrated their silver wedding at Lomas on Friday evening by a grand ball, which lasted till the small hours yesterday morning. We join their hosts of friends in the sincere wish that they may live to celebrate their Diamond Wedding.

The proprietors of the Colon Theatre have written to the Lord Mayor to say that they will at once carry out the necessary alterations in that theatre to make it safe for the public, and beg him to send them a model of the metallic curtain required. This curtain is quite a secondary matter, in our opinion, to a new roof, new staircases, more doors, and the several other alterations which the Municipal architects have declared indispensable.

Mr Paul y Angulo has petitioned the Minister of the Interior to allow him to erect a bull-ring in the city, to be kept open only while the Exhibition lasts. The Municipality has already peremptorily refused this petition, with the unanimous applause of the Press and the Public, and we feel certain that the Minister of the Interior will do likewise.

We believe, after all the fuss, the route of the Corso has been decided on: The same as last year, the old hash. 'Por supuesto!' It saves trouble.

We cordially join the *Libertad* in its suggestion that open tram cars should be allowed in the Corso this year, and the detestable 'carros de mudanza' suppressed. These carts are simply 'chocante' to all good taste, and how the refined Porteñas can condescend to go round the Corso in them is more than we have ever been able to comprehend. Is such a repulsive anomaly ever seen in the Corso at Rome or Florence? We trow not.

THE STATE OF IRELAND.

Salto, Jan. 31, 1832.

Dear *Standard*

Here, thousands of miles from the old country, we find in your issue of the 24th extracts from the letter of a Wexford Lady anything but favourable to our friends yonder.

To decorate the town for the reception of Mr. Parnell a few roughs tore up shrubs, &c., but this is stated as 'the people.'

Next we hear, for the first time of the insult to Dr. M'Cabe. How could this have escaped the small fry yonder on the look-out for such filling?

A Wexford Lady next speaks of the fearful murder of Miss Gafford, and winds up by adding, 'as usual no one has been arrested, and I think that fact does not seem to diminish the number of outrages,' leaving your readers to surmise that were the perpetrators of such a fearful deed known to the people they would be sheltered by them rather than brought to justice.

For the information of any person who may have formed such an opinion of 'the people' down in Wexford, I may add that a man and wife, named Hayes, and a man named Brien, are in prison for the murder alluded to.

Truly yours,

Wexford.

The principal periodicals of the Peninsula are very favorable with respect to the new President, M. Freycinet. They are of opinion that under his administration the French Republic will follow without disturbance its onward march in the footsteps of progress and liberty.

Some papers, referring to the Tunesian Question, trust in the tact and prudence of M. Freycinet, to resolve this question, without harming the legitimate interests of Italy in these regions.

The Passionist Fathers

The following appeal was presented on Saturday by a deputation of Irish girls, to the principal Irish residents in this city. The lists are still open for further names.

We the undersigned—(*Two Hundred and Fifty.*)

Catholic Irish Girls resident in Buenos Aires and earning our own subsistence, learn with deep regret that the English Speaking Passionist Fathers have not only ceased their ministrations at the Church of San Roque, but may, in all probability be obliged to leave Buenos Aires for want of efficient support from the English speaking Catholics to enable them to acquire land and to build a Church and Monastery. We are aware that our Holy Religion is the same throughout the world, and that in a professedly Catholic country we are able to hear mass, and to fulfil our bare obligations; but our hearts yearn for the spiritual consolation and advice to strengthen us in our faith, and aid us in fulfilling our duties, to which we have been accustomed in our own country, and which we can only receive satisfactorily in the language our childhood and from priests who understand our wants and characters.

We therefore respectfully and confidently appeal to the fellow countrymen of our Faith, who by God's blessing have acquired riches, to buy an approved and suitable site for the Passionist Fathers, on which they may build a Church and erect a Monastery, and to give them the land free from all debt and encumbrance so as to justify them in remaining among us, and thereby conferring a great boon on us in this city.

The Passionist Fathers being a Missionary Order, their establishment in this country would likewise be of vast benefit to our fellow countrymen and women in the camp.

The site being secured, we the undersigned will undertake to give liberally from our earnings to support the mission, and aid in building the church, and for that purpose we engage to subscribe, at least, the annual sum of two hundred and fifty dollars m/c, each This with the subscriptions of other pious and charitable families both in town and coutnry would complete the object.

The very Rev. Monsignore Daan Dillon whose great kindness and zeal is known and appreciated by us all, himself approves of this project, as he cannot single handed carry on the work of so large a community, together with his other important duties.

Irish Catholics have never been backward in supporting their religion, and have always taken a just pride in the steadfast adherence of their race to the practice of their Faith, and in the generous support of their Clergy:

We therefore fi mly believe that you will listen to our appeal, and we pray that God may reward your charity and return you one hundred fold what you give in His Name.

(Here follow the signatures.)

ON 'CHANGE.

Feb. 4th

Patacons	25.05
Cedulas E	86½
National Bank Shares	126

The gold market was weak all day, and operations did not amount to much. Telegrams from London to-day report favorably on the situation of the London market, and a gradual recovery is anticipated. There is a large supply of gold offering at present in the market, and as long as the Custom House receives the notes of the Bank at par, an effectual check will be maintained on the gold premium. Meanwhile paper money is getting scarce, and discounts are difficult; the applications at the Bank are few and limited.

In Cedulas nothing was done in Series A; Series E is rising and some business was done to-day at 86½. Series A is weak and may be quoted at 99½.

National Bank Shares were firm to-day. The bulls scout the idea of believing for one moment the attacks of the evening papers on the Bank. The very best recommendation of the National Bank and of Mr Pacheco's able management is the price of the shares at the present moment. The Italian King to-day entered the market and his operations sustained the stock. The bulls are evidently in the ascendant, and the rates are very firm. Cash prices are at 126, and for end of month 127½. The business of the day was important, and over 4,000 shares were sold.

In exchange there is nothing done; rates are as usual.

The sales at the ring were—

Gold—
For cash 46,7oo at 25.05
For Feb. 15th 15,ooo 25.10
For March 31st 2o,ooo 25.30
Sales, 81,700.

Cedulas—
For March 31st E 12,ooo 86½

Nat. Bank Shares—
For cash 68 shares 125½-126
For Feb. 28th 4,650 shares 126-126½-½-¼ to 127-127½

Sales, 4,728.

The market had only one topic to-day—the failure of the Union Générale—a species of Black Friday in Paris. The Union Generale, started with a capital of 25,000,000 francs, answering aspirations which tried to checkmate somewhat the Rothschilds, Pereires, and other leading bankers. The aristocracy and the clerical element of France rocked the cradle of the promising enterprise, and in a short time 25 o/o of the capital was paid up, and the shares of 500 francs rose like a rocket to 1,000, to 2,000, and topped 3,200 francs. The success of the new concern dazzled the French public, and stock jobbers made the most of the effervescence in the market. In the month of December the shares were quoted at the Bourse—

2,750 cash
2,900 for end of month.

and the differences were simply enormous, and blue ruin stared those in the countenance who had imprudently sold for the end of the month. The melancholy features of the crash are that all the shop keepers of Paris are let in and ruined. Mr Bontoux had withdrawn from the concern something before the crash, and unwittingly his financial genius will lead to a hegira of Frenchmen to the River Plate, to retrieve their lost fortunes. The Quartier St. Germain of Paris suffers heavily also and we may anticipate the arrival of many French noblemen, who will start estancias in the Pampa; far better if they had sunk their money in Santa Fe or Misiones. The great financier who brought on this catastrophe, Mr Bontoux, was a charitable man, and we hear that he gave to the Vienna victims 100,000 francs; so much saved from the 96,000,000 of francs gone. It is to be supposed that the Vienna branch of the Union Generale started under the auspicies of Mr Bontoux has smashed also.

Captain Lawson, of the Minho, was welcomed on Change to-day.

The Guadiana has suspended her departure till Monday.

We notice that 'boletos' of the late Provincial Land auction are being offered in the market; they find no acceptance, and it is stated that many will rather pay the usual fine than sign the 'escrituras'.

Mr A McDougall, of Entre Rios, was welcomed on Change to-day; he states that disorders in Entre Rios are exaggerated.

Advices from Rosario state that people in that flourishing place object to the junction of the Central Argentine Railway with the mole; they fear that many folks, such as 'changadores', cart-men, &c., will be ruined. They evidently do not know their own interests in Rosario.

Mr F Pirmez was welcomed on Change to-day on his return from Tandil, where estancieros are all making heaps of money and the cattle are increasing 40 o/o.

Messrs Baltar & Quesada sold to-day about twenty horses; the buyers and the prices paid per animal are the following:—

A Cascos	$1,3oo (2 animals)
Do	1,ooo
Do	1,6oo
L Cabral	3,1oo
A Villate	3,ooo
P Acebalo	3,5oo
Rocha	5,ooo
A Cascos	1,5oo (2 animals)
Rocha	5,2oo
Do	1,9oo
A Cascos	1,6oo
J Uhalde	1,6oo
Ilait	1,1oo

At afternoons some 5o,ooo pats gold were sold at 25.03. Several sales were made for Monday at 25-05. National Bank Shares rose to 128½ for end of month, and the market closed at this rate.

Tucuman is expected to produce this season 1,5oo,ooo ar. of sugar, in spite of what has been said of the bad condition of the sugar plantations.

About 20 threshing machines are now in Olavarria; the heavy rains have, nevertheless, greatly interfered with threshing in this Province.

Our enterprising colleague, the *Nacion*, publishes the following commercial telegrams:—

"London, Feb. 2nd

"National Bonds 6 o/o, 1868, 96½-97.
"Do do do, 1871, 95½-96
"Do do do, 1881, 89½-90½
"Hard Dollars, 82-83
"Do do 6 o/o B. Aires, 1870, 95½-¾
"Treasury Bills, 9 o/o, 110-112."

Once, no cargo train arrived and only 4 waggons of wool came with the tren mixto. Sales 4,ooo ar. Only about 8ooo ar. left unsold. Prices a trifle lower than last week and about 6—7 $ lower than 3 weeks ago, before the Havre auction commenced.

A well-known 'Artista' received a telegram to-day announcing a fall of ten centimes in the auction, which confirms the telegram from Antwerp published in another column.

Some exchange was done to-day at 49⅞; small amount.

Discounts in paper are becoming very difficult, quotations at 8 to 8½ o/o discount; gold discounts are easier at 7 to 7½ per cent per annum.

4900 head of cattle have been sold in the Tres Arroyos at 230 m/c.

The fast Lamport and Holt steamer Galileo leaves this port on the 16th inst. direct for Southampton, without touching in Brazil

The R.M.S. Minho in command of Captain Lawson, has undergone costly and complete repairs. The saloons have been magnificently decorated, and new engines have been put into her, enabling her to steam a knot faster than formerly. Captain Lawson informs us that the West Indian owners of the company take every trip nearly 1000 tons of plant for the Panama Canal, and that the Isthmus is as busy as a bee-hive.

Mr Poelmahn of the firm of Poelmahn and Stock, Hamburg, who had come out as agent for the Meat Powder Factory in Barracas, took leave of his friends to-day, he goes to Europe via Brazil. Messrs H. Hollmann & Co. are managing directors of this Company for the River Plate.

We hear that with the exception of the Great Southern Railway all the railways in the province have conceded a reduction of 50 per cent on the freights of exhibits to the Exhibition. We can hardly believe the rumor, since the company obeys a money policy if it be true. The interests of the province are those of the railway, and the directors should make concession when the interests of the province are involved.

At the South Market some business done at the following prices:—

26 waggons with produce arrived.
12,050 ar. of wool arrived.
No business done, owing to the bad weather.

The returns of the Custom Houses of the Republic for the month of January are simply splendid. The *Libertad* in last night's leading article unwrittingly drew the attention of its readers to the fact, and instead of proving the fallacy of Congress in sanctioning a high Budget corroborates the calculations of the Finance Committee and members of the house. Our colleague has his attention merely fixed on the returns of the Buenos Aires Custom House, leaving Rosario and other ports quite out of the question. We for our part think that Congress did very wrong to sanction such a very heavy budget for 1882, and such a heavy deficit, and we are convinced that the succeeding months of the year will not prove as prosperous as that of January, owing to many causes that are easily foreseen. In January the B. Aires Aduana gave $1,459,141; the Rosario Custom House produced $219,000; and we may reckon $100,000 for the returns of San Pedro, San Nicolas, &c., making a total of $1,778,141 of returns for the month of January; at this rate the budget might be finally covered, but the probabilities point another way, and the current month will fall far short of January's returns.

The following financial items taken from the London *Economist* Dec. 31st, will interest our readers:—

"The Bank at this time of the year always hesitates to raise its rate, from a natural and very proper disinclination to use the power which the fact of its being the banker of the Government gives it to force the rate upwards. In January twelvemonth, it is true, the rate was raised; but then this was from 3 per cent. to 3½ per cent., and putting the rate up from a 3 per cent. level is a very different thing to doing so from 6 per cent. The reserve of the Bank has dropped £720,000 during the week, owing to the natural expansion of the circulation and to requirements for coin at this season. The expansion will gradually subside, and the coin taken will also doubtless flow back through the accustomed channels. But we hardly see whence the reserve, now standing at £10,500,000 only, is to receive any further assistance except from these sources, unless, what we can hardly consider likely, but as our Paris correspondent says, is possible, the Bank of France were to lower its rate. During the week it has been noted that £33,000 was sent direct from Australia to San Francisco, £90,000 has been taken from the Bank for the River Plate, £100,000 for Portugal, £75,000 for South America and Egypt, and we expect that a small additional sum will be required shortly for the last-named country. These are but driblets, and though some small amounts have come in from Australia, yet the withdrawals point out the direction of the current, which certainly does not seem likely for the present to set towards bringing gold from abroad to the Bank, if, indeed, it does not move in the other direction.

"The fall in Bourse securities has continued during the week, and has become more general, even reaching those shares such as Suez Canal and Union Generale, which had hitherto formed exceptions to the rule. The depreciation in Rente has at length attracted the attention of the Government, and its recognised organs are endeavouring to explain away the anomaly of the discredit into which the State loans have fallen, when so many circumstances, among others the flourishing state of the revenue, should have produced an opposite result. The *Voltaire*, however, discovers in the fall traces of a combination among capitalists to avenge the removal of M. de Normandie from the Governorship of the Bank of France, and is almost ready to make the Bank responsible for the present difficulties in charging it with accumulating gold in its cellars and unnecessarily keeping its rate of discount at 5 per cent. It would be easy for the Bank to reply that Rente had fallen almost to its present level before the change in the Governorship of the Bank, and that it could not safely reduce its rate to 4 or 3½ per cent, as demanded, while the rate remains at 5, or above, on the other great European markets. The high rate obtained for loans on the Bourse is one of the chief causes for the diversion of capital from the funds, and that cause is likely to continue, as the sum employed by the banks in reports has become inadequate from the prices reached by the securities which have engaged speculators. To carry over a purchase of 300 Suez Canal shares a sum of one million of francs is now required; the price of Union Generals shares in almost as high, and other shares have risen 40 or 60 per cent. during the past year."

We take the following interesting figures from Mr H Altgelt's *Weekly Review of Agricultural Produce*—

"Arrivals of the week—
Wheat .... 549,028 kilos and 5,031 bgs.
Flour..... 213,199
Maize..... 152,954 kilos and 2,217 bgs.
Flax..... 221,913
Hay..... 573 bales

"Exports of the week:—
Linseed, 250,000 kilos to Europe.

"Wheat—

"The arrivals of wheat and flour have been more important than last week, but as yet they do not meet the demands of the millers. The few arrivals from the Rivers had already been bought in the Rosario market for consumption here, and have not, therefore, been offered here. The rates of wheat have risen from $10-15, as the demand has been much superior to the supply. Good Salado qualities have fetched $165, 190 and 200; for Costa wheat $210 per fanega have been refused. The Santa Fe millers made arrangements not to pay higher than $13½-¾ for wheat, but the arrangement will probably remain a dead letter, as orders have been given already at higher rates in Rosario and Entre Rios. Candeal quality is always in demand. The market closes very firm, but its prospects are risky.

"Flour—

"The market is rising and prices shew an improvement of $1 as compared with last week. Some large sales have been effected in the old stock of flour, prices opening at 25½-26 and closing at 27-28; holders now ask from 29 to 30 m/c. The arrivals of fresh flour are very limited; some Ramallo kinds from the Rivers have been placed at $31-32, but the business subsequently fell through. The demand continues and prices are rising. The millers of the city ask 33 and 34 m/c per arroba.

"Flax—

"The arrivals have not been important, owing to the bad weather; what is offering in the market is bad; good qualities are firm at last week's quotations. In maize no operations."

Engineer Waldorp has given his opinion as to the favorable condition of Ensenada as a port. Messrs Moreno and Wheelwright were right when they stated that the Ensenada was the best spot on the coast for the purpose. It remains to be seen what the Provincial Government will do in the matter, and if the Riachuelo Works will be carried on. In our opinion there is room for both.

The following shows the exports of Rosario during the month of January 1882:—

Minerals, bags	3,123
Maize, do	2,429
Wheat, do	10,567
Flax, do	918
Flour, do	4,334
Barley, do	1,253

Mr Guillermo Printzenskold, shipbroker of Rosario, in his excellent report for the month, gives the following exports from 1st Jan. to 31st January:—

Rosario, Jan. 31st, 1882.

7,181 dry ox and cow hides
25 dry horse hides
1,100 bales wool
63 bales sheepskins
55 bales hair
21 bales sundries
7,284 bags maize
626 bags barley
1,070 bars copper
193 bars silver
1,553 packages alloy
349,340 kilos bones
10,016 horns
2,730 bales hay
330 tons wood
6 tons bark
4 parcels specie
1 box specie
887 logs wood

Charters—

Onward to load in port for Rio Janeiro, hay, at 2¾ pats.
Camilla do in San Nicolas for Nantes, ash and bones, 30 francs.
Joven Alberto do do for Rio Janeiro, hay, 2¾ pats.
Gog'a do in port and San Nicolas for Antwerp, bales wool, 16s 6d
Madre Maria do San Pedro do, do, 16s 5d
Ethel do in port for Rio Janeiro, hay, $1.78

Freights—

Through most of the wool going by regular steamers, prices have reached, to Antwerp 40s and 10 o/o, and Havre 40 frs. and 10 o/o. Two sailing vessels have been chartered to load at San Padro and San Nicolas for Antwerp at 16s 6d and 5 o/o.

Wheat—

Very few arrivals, and through the speculation of the millers, export has up to the present been rendered impossible.

Linseed—

Few arrivals yet, the late rains having greatly interfered with the article while being prepared for the market.

Hay—

There is a better feeling in this business, since freights have come down to 2¾ pats, and large shipments might be exported if prices at Rio were more favorable.

Bones—

Very small stock; very few arrivals from Interior or Rivers. Few shipments made go to U. States on account of better prices.

On Friday, February 17th
At 3 p.m.

We shall sell on the above conditions this magnificent camp which formed part of the Estancia 'La Colorada', situated in the partido of Las Flores. The Southern Railway, runs through the land and there is a station on the property.

As the camp is so well know for the excellent quality of its pastures, any praise would only be superfluous. The following lagunas are in the camp :—Del Sauce, del Medio, del Quemado, de la Naranja and others of less importance.

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot Nro. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

A fine quinta fenced and ditched. Besides there are 4 or 5 puestos in this fraction with zinc roofs. The superficial arrea is 1167 squares and 18,941 square varas with some fine lagunas.

The other fractions are of regular formation and have been made of small size to suit the wants of agriculturists as the soil is excellent and adopted for tillage. The building on these lots will be included in the sale.

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zeuone, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of 'Las Barrancas'.

The Railway to Bahia Blanca will traverse the Camp
Permanent Water
BASE OF SALE $111 M/C PER HECTAREA
On Tuesday, Feb. 7th
At 3 p.m.

In our mart, San Martin 51

We shall sell by order and for account of proprietor, for the highest bid over and above the mentioned base, a piece of land situated in the district of Juarez, and known as the Fortin de las Saladas. Camp which was selected by Gen. Rivas for wintering cavalry horses, and which the Indians previously made use of for the same purpose. We remind the public of these facts in order that they may be able to form an accurate idea of the excellent quality and abundance of the pastures on the camp.

The lake called Las Saladas is about four squares by 5, contains potable water supplied from permanent springs. Situated on the borders of the camp is the lake, La Totora, also an important sheet of water. This camp adjoins the properties of Messrs Santa Marima, Mariano Roldan, Zabala Bernardo, Arriaga, Jose Maria Nuñez, Pedro Rivas and Leloir.

We call attention to the very low valuation put on the land; the adjoining land called La Totora was sold in 1876 for a higher price than the base of this sale, and we also remind the public of the late sale of the Lomas de Lara which realized $1,050,000 m/c per league.

The bus which leaves Azul for Bahia Blanca stops at La Gloria which is on Mr Santa Marima's camp and adjoining the land which we shall auction.

There are still due to Government 4 bills of $20,000 m/c each.

For plans and further details apply at our mart 51 San Martin.

THE STANDARD—Printed and published every morning at the *Standard* Printing Office, 154 Calle Piedad.

SPANISH AMERICAN TRADE

Notwithstanding the frequent civil wars which have retarded the progress of this part of the world we observe an increase of 20 per cent in trade over the figures for the decade that closed in 1870—

Year 1880	
Imports.....	£33,700,000
Exports.....	40,900,000
	74,600,000

Imports have, for some years back, shown a downward tendency, which is partly the result of the protective duties (50 per cent 'ad valorem') that have been imposed with the avowed purpose of promoting local manufactures. Exports, on the other hand, keep steadily rising, and will continue so to do with the constant influx of European settlers, and the growing development of railways, Spanish America possesses nearly the same amount of trade and population as Italy, and the value of exports per inhabitant is 34s, but she lacks a merchant navy quite as much as the United States, which compels her to pay 10 per cent on her gross trade to British and other flags for freight. Hence it comes to pass that the balance of £74,000,000 last year in her favour was nominal. Inconvertible paper money is universal, and its fluctuations are injurious to commerce, but in a much less degree than the arbitrary system of Customs and too often vexatious treatment of merchants and shipping. We have, meantime, to observe a remarkable decline in the trade with Great Britain, which now stands for only 30 per cent of the total, whereas formerly it never fell below 36 per cent; the returns of our Board of Trade for imports from, and exports to, Spanish America are summed up thus—

	Average 1861-70	Aver. 1871-80
Imports....	£12,100,000	£14,400,000
Exports....	10,050,000	12,040,000
	22,150,000	26,440,000

Year 1880	
Imports.....	£11,450,000
Exports.....	10,400,000
	21,850,000

This decline is coincident with an increased activity among French and German merchants, who are often content to work for infinitesimal profit, and to submit to conditions that Englishmen would consider disadvantageous. When a mercantile firm condescends (as proved in official documents) to remit £100,000 to London on a profit of 30s., we can form an idea of the closeness of competition that British merchants have to face. Much noise has been recently made about a contract which the Argentine Government has concluded with the Creuzot Foundry, in France, to supply railway bars at £10 per ton, which any English firm could supply at £7 a ton, but it remains to be seen whether the contract is to be paid in cash or in Argentine bonds of the loan recently negotiated in France. It is nevertheless true that British trade could be safely extended in almost every one of the 15 republics that compose Spanish America, if our merchants and manufacturers took the trouble to push business by means of experienced travellers, and by freely advertising their merchandise in the principal newspapers of those seaports where our steamers call.

The trade of Spanish America may conveniently range itself under four heads, as in the following table, it being understood that Central America is a term adopted for the moment to embrace Mexico, Venezuela, Ecuador, Colombia, Guatemala etc.

Imports	Year 1880
Central America.....	£13,700,000
River Plate.....	12,200,000
Chile.....	6,400,000
Peru.....	3,400,000
	35,700,000

Exports	Year 1880
Central America.....	£16,100,000
River Plate.....	14,400,000
Chile.....	7,300,000
Peru.....	3,100,000
	40,900,000

Few South American products will bear the cost of more than 200 miles of land-carriage, but there are fortunately a great number of rivers that offer easy navigation for vessels of light draught, enabling places more than 1,000 miles from the seaboard to send down their merchandise to ports in contact with Europe. The ordinary freight from Paraguay to Buenos Ayres, 950 miles by water, is only £2 per ton, whereas the same distance overland, say from Tucuman or San Juan, involves four or five times that cost, although for the most part by railway. Paraguayan tea, which many people prefer to Chinese, can be bought in Asuncion, at 2d. per lb. for the best quality, but it is subject to an export duty of nearly 100 per cent, and if imported into Europe it would have to pay the same duty as Chinese tea. As soon, however, as the people of England obtain a free breakfast-table we may look for a large trade in yerba-mate (as this tea is called), the supply being practically inexhaustible, for the Yerbales or tea forests cover several hundred square miles. Many of the Argentine provinces produce excellent wine in such abundance that it is often poured out on the ground to serve for manure when casks are scarce; the best are those known as Rioja, San Juan and Catamarca, with a flavour resembling Sicilian and other volcanic vintages. But as they grow 1,000 miles from any seaport, and far from any navigable river, it is doubtful if they can ever attain any value as an article of the world's food. The same may be said of the Yungas coffee in Bolivia, although it is a delicacy as yet unrivalled, for which as much as 10s. per lb. is commonly paid at Buenos Ayres.

There is at present no product of Spanish America that can dispute with River Plate wool the foremost rank of importance, and yet it is of recent growth. It surpasses in annual value all that Mexico ever (in one year) obtained from her silver mines, Peru from her guano, or Chili from her copper, and has trebled in 20 years as shown by the shipments :—

	£
Average, 1831-65....	103,000,000
" 1871-76....	233,000,000
" 1877-80....	265,000,000

Nevertheless, it needs little foresight to predict that, before the close of the nineteenth century, River Plate wool will have given place to a trade ten times more important, namely, the export of meat for European markets. The Pampas and the Republic of Uruguay at present count 81,000,000 sheep and 17,000,000 cows, the former being tended merely for their wool, the increase of the latter slaughtered for their hides and tallow. It is true some 47,000 tons of jerked beef are shipped annually for the negroes in Cuba and Brazil, but the day is not distant when the River Plate will export 1,000,000 frozen sheep carcases monthly to Europe, besides beef, although the latter will have to be stall-fed, or otherwise artificially fattened, before killing. Liebig's extractum-carnis and the Paysandu tongues are already favourably known in Europe.

Wheat-growing is an experiment, like sugar-growing, that is likely to prove very successful on a limited scale for the mere requirements of home consumption. In fact, it has been grown ever since 1840 both in the River Plate and Chile, but we should fall into a grave error if we ever counted on South America as a part of the world to which we might look for a considerable supply of grain. In times gone by Chile fed California and Australia, when a 4 lb. loaf cost 1s., but of late years the Chilian Government has repeatedly lamented the decline of agriculture, no longer stimulated by extraordinary prices. As regards the River Plate, a fair crop of wheat may usually be expected in Santa Fe, unless when the locusts appear, but the cost of moving the grain from Santa Fe to the nearest port for shipment would exceed the freight now paid (6s. a ton) on wheat sent from New York to Liverpool. Although good land may be bought for 6d. an acre in some of the inland provinces, the land-carriage for products would cover their market value. Labour, moreover, is dear, and the cost of living is formidably enhanced by the protective duties on imports, which have tended to foster monopolies.

As for the West Coast, it will be some time before Chile and Peru recover from the effects of the war. We may, indeed, see a nominal increase of exports from Chile, that country having stripped Peru of the valuable nitrate beds of Tarapaca. Peru will ultimately revive.

Our exports to the River Plate have risen 33 per cent, since the decade ended in 1870. This shows, as Sir Julius Vogel says, that 'trade follows the flag,' for we have 42,000 British subjects residing in or near Buenos Aires, and our investments in that country are also on a very large scale. There is probably no part of South America which offers a more suitable field for European settlers than the Argentine Republic, the steady influx of immigrants averaging for the last 10 years over 40,000 per annum, Uruguay, Paraguay, and Chile also possess many advantages, and invite alike the attention of the colonist and the merchant. In the last 20 years Spanish America has absorbed about £100,000,000 of British capital, the total amount now invested in the 15 republics being shown as follows :—

River Plate.....	£41,250,000
Chile.....	13,900,000
Peru.....	44,550,000
Central America.....	26,400,000
Total.....	126,100,000

About 40 p. cent of the above total is hopelessly lost; some of the stocks daily quoted in the London papers as rising in value were never worth the paper used for printing them. But we have still 60,000,000 or 70,000,000£ of good money in Spanish America, and this ought to give us great weight in the commercial interests of that part of the world. No other nation of Europe has any investments to compare with ours, and yet we have active, watchful, and daring competitors, for the trade of those countries. French and German lines of steamers take from us a great portion of the carrying-trade, which until 1862 was wholly in our hands. French and German merchants at Buenos Ayres have usurped the seats in the State Bank that were formerly held by Englishmen. French railway iron has, in the case of the Mendoza Railway, supplanted us in an industry that we regarded as our own. But neither Frenchmen nor Germans have yet gained the prestige that attaches to the name of an English merchant, nor can they at all times command the capital necessary for a long-sustained rivalry with us. The Americans made a great effort in 1877 to carry off the trade of South America by a 'coup de main,' but they failed. If we wish to maintain our ground there we need not fear either French or Germans, but if we throw the trade into their hands they will appreciate it more than we have done.

STORM IN SALTO, B.O.

Salto, one of the flourishing small towns of the Banda Oriental, was very nearly blown away last week in a terrific hurricane and dust storm; the gale came on the very day when everybody in B. Aires was looking at the thermometer and the mercury marked 39° Centigrade in the shade; on the 30th ult. The storm, it appears, burst over Salto in about the same manner and at the same hour as the great storm of 1865 or 1866 here in Buenos Aires when the clouds of dust enveloped everything and the darkness became so Cimmerian as to foreshadow the approach of the Last Day. The details of this Salto storm we take from the *Porvenir* of Salto:—

"The following are the details we have been able to collect respecting the storm which has devastated so large a portion of the town. Part of the roof of the Church has been blown away. Seven or eight trees in the principal Plaza have been torn up by the roots. The signboard and a wall of Pirotti's coach yard have been blown away; also the roof of our kitchen, and the 'galpon' at Messrs Pons and Palet's; the principal station of the railway (almost entirely.) Twenty houses in the Plaza Nueva have been blown down. The steamer Rio de la Plata dragged her anchors opposite Concordia, and was stranded opposite Harriague's Saladero, (she was rescued by the Onyx.) Great destruction was caused at the Saladero. The families of Araujo, Guimaraens and Tolosa had very narrow escapes from being crushed under the debris of their houses. A little girl was killed by the falling masonry. A woman who had just been confined was killed by the roof of her house falling in. The 'galpon' in the port is in ruins and two schooners dismasted.

"Sr. Harriague's beautiful quinta has been laid waste by the wind and heavy hail. Three vessels, two loaded with salt and one with coal, which were discharging at the Saladero, have been lost, two having sunk and the other one having completely disappeared, nobody can tell whither. Six sailors were drowned and the rest had a narrow escape. The names of these vessels are Rosa de Italia and Destino. The state of the men who were rescued from these wrecks is truly pitiable; they present the appearance of one mass of bruises, being battered from head to foot by the enormous hailstones. The sloop Bella Assunta named by two brothers known as 'Palitos' went down opposite Harriague's and the two men were drowned. The 'graseria' adjoining the Saladero has suffered also very much. Two large new 'galpones' have been destroyed and other damage of more or less consideration has to be lamented.

Messrs. Cibils' establishment 'La Conserva' has also suffered very severely, the zinc plating from the roofs of the sheds being blown on top of the rooms used as a dwelling house, perforating them in many places and utterly ruining the furniture. Don Juan Arrien, a clerk of the establishment, was caught in the hurricane, thrown from his horse and very severely wounded.

Almost the whole of Sr Tordecilla's establishment 'La Curtiembre' has been destroyed. In the port, besides what we have said of the Rio de la Plata, the vessels Alcotea, Joven Orestes, Envidiosa, and Joven Tobias have been more or less severely damaged. The little steamer from Concordia was compelled to run aground; the Iris was blown ashore, and the Bomplund was slightly damaged about the paddle-boxes. All over the city, houses numbering over a hundred in all have been destroyed and rendered uninhabitable. The deaths of six persons in various parts of the town, where these disasters have occurred, are reported, and it is probable that more may succumb owing to the severe injuries received from the hail and falling brickwork etc.

It is impossible, however, to give even an approximate idea of the damage done, the estimate of 600,000 pats gold being very moderate in comparison with the widespread devastation left by the storm, and the amonnt of valuable property destroyed.

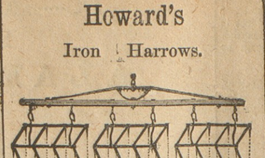
HOWARD'S CELEBRATED HARROWS

Howard's Iron Harrows.

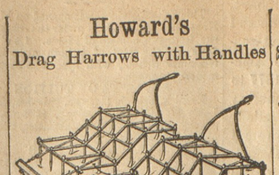


These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose, and unlike Colonial-made imitations they can be readily taken out for repair.

The following are some of the most useful sizes:—

No. 11, for two or three animals, 10 feet wide, weight 2¼ cwt.....
No. 12, for two animals, 9½ feet wide, weight 1¾ cwt.....
No. 14, for one or two animals, 8½ feet wide, weight 1½ cwt....
No. 20, for one animal, 7½ feet wide weight 1 cwt.....

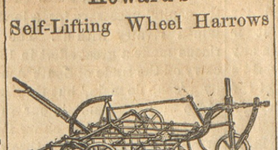
Howard's Drag Harrows with Handles



These are the same as J. & F. Howard's ordinary Drag Harrows, but furnished with handles, by which convenient arrangement the tines can be pressed into the ground, or lifted out to clear them, as occasion may require.

H 16, a pair of 4-beam Harrows, with whippletree, 9½ feet wide 3½ cwt.....
H 16, a pair of 3-beam Harrows, with whippletree, 7½ ft. wide, 3 cwt.....
H 17, a pair of 4-beam Harrows, with whippletree, 9½ feet wide weight 3 cwt.....
H 17, a pair of 3-beam Harrows, with whippletree, 7 feet wide weight 2½ cwt.....
H 18, a pair of 4-beam Harrows, with whippletree, 8 feet wide, weight 2½ ctw.....

Howard's Self-Lifting Wheel Harrows



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

L 1, for two light animals, with 12 tines, 4 ft. wide, weight 3 cwt
L 2, for two or three animals, with 17 tines, 4½ feet wide, weight 3½ cwt.....
L 3, for three or four animals, with 23 tines, 5½ feet wide, weight 4½ cwt.....
L 4, for four animals, with 25 tines 7½ ft. wide, weight 5½ cwt..

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ESTABLISHED 1799.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c., at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Citizen.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
